BRITISH AND RUSSIAN TROOPS FRATERNIZE IN IRAN

In their advance across Iran from the west and south the British troops met the Russian troops at two places, both in the northern half of the country, to shake hands. The first rendezvous was at Sehneh, 50 miles from the Iraqi frontier, and the second at Kazvin, among the hills above the Caspian shore, 90 miles from Teheran. After congratulating each other upon successful marches the allied detachments parted to go to their appointed stations. . . . British troops are here seen during the fraternization inspecting a Russian armored car.

AUDITORIUM OFFICIALLY OPENED

Prior to the official opening of the R.C.A.F. recreational auditorium at Patricia Bay Station on Friday evening, Jan. 23rd, approximately 1,600 airmen and guests watched with keen enthusiasm and evident enjoyment the Victoria Girls' Drill team as they entertained the assembled guests for one hour with marches and drills. The height of enthusiasm and applause were attained when the girls divided for their V for victory formation and Miss Jean Dumerton sang "The White Cliffs of Dover."

At 9 o'clock, following the drill performances, Sqdn.-Ldr. Lorne Gray, R.C.A.F., in the absence of Group Captain P. B. Robertson, O.C., officially declared the auditorium open.

Under the direction of L.A.C. Cy Roach, the R.C.A.F. Orchestra, famed by its increasing popularity, rendered the music for the dancing which continued until 1 o'clock. Refreshments were served by the members of the Women's Auxiliary to the Air Services, ably supervised by Mrs. Wm. Poupour.

This auditorium, which has been constructed by the Dominion Government at a cost of \$60,000 and completed a few months ago, is being handled by the Y.M.C.A. under the direction of Lorne Browne, who has been in charge of the "Y" activities at the station for some time.

In no measure can the value of this auditorium be estimated as it will undoubtedly prove an outstanding asset to the Patricia Bay Station in providing for the recreational activities of the personnel.

Twenty rooms, which include lounges, table tennis, billiard, projection and dressing rooms, Y.M.C.A. office and two chapels, surround the main floor, which is a combined dance floor and gymnasium.

A stage which is commended for its size, modern lighting and dressing rooms off the wings, is formed at one end of the auditorium and a balcony, furnishing ample room for 1,600 people who can be accommodated on the main floor.

V . . .

FULFORD, Jan. 28.—A very interested spectator at the basketball game and dance last Friday evening was Sergeant A. J. Jackson, who was recently appointed recruiting Sergeant for the Gulf Islands area.

During the dance intermission Sergeant Jackson made a stirring appeal for recruits. Touching briefly on the basketball game, which he said he had enjoyed very much, he told of the more serious game of war and the urgent need for recruits for the army, especially tradesmen. He went on to explain the many different trades that were taught in the army and what it meant to the recruit. He spoke of the downfall and occupation of France and what was now happening in occupied France, bringing home to the people that it could also happen here, and that defeat meant slavery. At the conclusion of his appeal he was given a great ovation.

FOOD MARKETING

Sir: An amusing glance into the future portraying the marketing of all services and commodities by the speculative system under which the Farmer and Food Producer is now obliged to dispose of his goods in the wholesale market, has been published in "Country Life in B.C." January issue. It may prove of interest to many of your readers.

Now take a look into the future in the following forecast for 1945.

"You will recall that a committee of 100 economists meeting in the summer of 1944 seriously recommended as a cure for the nation's economic ills, that wages and prices of industrial products be determined by extending to those fields the beneficent system of speculative markets, which for so long had prevailed in agriculture. Their recommendations were adopted. Market exchanges for these products and services were set up in July of that year. And the following is an extract from the market news summary in the New York Times of March 6, 1945: "With few exceptions the market was weak all along the line today. May carpenters were quoted steady to 25c off. The market for July plumbers lacked

serious support and reacted to a persistent drive, by short sellers, by dropping 30c below yesterday's average. Weakness was most pronounced in the barbers pit where the price of September haircuts dropped to 30c while plain shaves for September delivery decreased five points to 10½c. The only strong point in the labor market was in stenographers where a squeeze put the September price up to \$30 a week.

"In the industrial field, May tractors went begging at a decline of \$75 from yesterday's final quotation. September refrigerators dropped \$40, with a late reaction due to covering by shorts which made up \$10 of the loss. Spot corn planters were steady at \$8 below yesterday's closing."

The foregoing exposes the absurd situation in which the Farmers and Food Producers are placed today.

BRITISH FLEET AIR ARM TRAINEES EXAMINE "SPITFIRE OF THE SEA"

"Somewhere in England," advanced trainees of the Fleet Air Arm were photographed during cockpit instruction with their new fast fighter aircraft, the Fairey Fulmar. This monoplane carries a crew of 2, has 8 guns in the wings, and was designed for use in aircraft carriers where it can be easily packed away when not in use. The Fulmar has already had a number of big victories to its credit notably in the recent fierce convoy battle in the Central Mediterranean. Italian torpedo bombers, heavily escorted by fighters, attacked a large British convoy carrying troops, munitions, and stores. Fulmar fighters from the British Aircraft Carrier, Ark Royal, engaged the Italian aircraft so successfully that 13 Italian aircraft were destroyed.

Rentals Control Information

According to an announcement in Ottawa there is no provision in the rentals orders of the Wartime Prices and Trade Board for fixing rentals on the basis of economic return on investment. The purpose is to maintain rentals at the levels existing in the various communities on the basis date. If a general increase in rentals were permitted in any community the cost of living, in which the rental is a major factor, would also materially increase.

This point is emphasized by the Board's Rentals Administrators in dealing with certain misapprehensions found to be quite widespread.

"Rentals in areas that have been benefitted as a result of wartime activities should not be permitted to increase exorbitantly as compared with those in other communities where there has been no special war activity," it was pointed out by Cyril DeMara, Administrator of Housing Rentals.

"Therefore the placing of a ceiling on rentals, as on the prices of commodities, has been carried out on a Dominion-wide basis, and there is no provision for special concessions to cities, districts or communities. Provision is made, however, for remedying palpable injustices where they come within provisions of the order, but this applies solely to individual properties.

"It is a war measure and designed to prevent inflation, and the only practicable principle is a ceiling policy. We can adjust individual inequalities, but general increase are prohibited."

Owen Lobley, Administrator of Commercial Rentals, expressed it this way: "It is not a levelling-out measure, nor designed to give relief to landlords or tenants who may have made unprofitable contracts. Rentals are fixed at what they happened to be on the 11th of October last. The notion of fair return, or profit on invested capital, does not enter in to the rent control regulations."

Some landlords seem to have been under the impression that they are at liberty to increase rentals once they have made application to do so. The fact is that this is an infraction of the regulations and will be subject of prosecution. No one may lawfully increase a rental over that charge on the basic date, even though justifying conditions are present, until he has received permission to do so from a local Rentals Committee.

Committees will not consider applications to fix the rental of any property for which there is not a maximum rental in existence, such as a property recently built, unless a landlord-and-tenant relationship exists. Committees will not make valuations for landlords before accommodation is actually subject to lease or agreement for lease. When landlords apply to committees to have rentals fixed for such properties, it will be necessary for them to submit lease contracts that have been made with tenants.

Every effort will be made through local Rental Committees to facilitate the normal operation of real estate business in relation to leasing of properties, and if a copy of the lease, with all the conditions thereto, is submitted, the committee may make a determination prior to the date of the tenant actually taking possession.

Mr. Lobley, who recently returned from a visit to Quebec, explained that in that province the local Rentals Committees will consist, in the principal cities, of judges to be specially appointed, and elsewhere the district magistrates will act as one-man committees. In other provinces, applications for rental variation will be heard by Rentals Committees consisting of the County or District Court Judge, or other local committees where functioning.

Decisions of local Rentals Committees, on applications for variation or determination, are final unless either party within 10 days of the date of decision files notice of appeal to the Administrator of Rental Appeals, Hon. J. D. Hyndman, Ottawa, or the Deputy Administrator of Rental Appeals, Judge T. H. Barton, Toronto.

Violations of the rentals regulations should be reported, not to the rentals administration but to the regional or sub-offices of the Wartime Prices and Trade Board, for investigation by the board's enforcement counsel. This applies to demands for rental higher than the authorized maximum; increase demanded in a rental for which no maximum has been fixed; or where a tenant has been given an improper notice to vacate, or where a tenant has already been charged a rental higher than permitted under the law.

Where notice has been given in contravention of the board's order of Dec. 30th, which amended the civil law in respect of leases, housing and commercial, infractions should be taken up through the civil courts.

For example, a tenant is entitled to a renewal of his lease unless the landlord requires the premises for certain reasons listed in the board's rental orders and has given the tenant written notice to vacate within the time and in the manner prescribed therein. If such notice is contested by a tenant, the landlord must obtain a court order for possession.

"Housing," for the purposes of the regulations, includes hotel rooms, rooms rented by day or week in rooming-houses, and also room and board when paid for jointly.

Copies of all rental orders and regulations and application forms for rental variation are available from any of the regional offices or sub-offices of the Wartime Prices and Trade Board, and, in areas where such offices are not established, from the clerk of any County or District Court or local Rentals Committee.

North Saanich Area Made Many Articles

At the annual meeting of the North Saanich Branch of the Red Cross Society, held recently in the Farmers' Pavilion, Dominion Experimental Station, Mrs. J. J. White, work convener, submitted the following report:

To the president, officers and members of the North Saanich Branch of the Red Cross Society I beg to submit my annual report as follows:

My last report ended October 31st, 1940, therefore, this report is for the 14 months ending December 31st, 1941.

There are seven rooms opened for work each week: Deep Cove on Wednesdays, Miss North convener; Mrs. A. D. Macdonald's home on Mondays, and Mrs. McMeiken convener; Rest Haven on Tuesdays, Mrs. Courser convener; the United Church on Thursdays, Mrs. Joe John convener; Buzan Bay, Farmers' Pavilion, on Tuesdays and Thursdays, Miss E. Gwynne convener, and the Red Cross Rooms in Sidney on Thursdays and Fridays. An eighth room under the convener of Mrs. Lancaster has been closed for the past three months but I

am glad to tell you that this has been opened again last evening under the convener of Miss Eileen McKenzie. These workers will specialize in baby garments.

The number of workers in the different rooms is as follows: Sewers, 72; knitters, 54; sewers and knitters, 41; quilters, 22.

In October we had an exhibition of the work done in the different rooms and in response to the appeal for blankets sent in to headquarters six blankets and \$88.

The work accomplished during the year could not have been done without the splendid co-operation of those in charge of the different units and their workers. To them and to the faithful cutters who have never failed to respond to an urgent call (and there have been many) I beg to tender my sincere and grateful thanks.

The following is the list of articles made during this time and sent on to headquarters in Victoria, a total of 4,663 articles, 430 of these being donations.

Both Heavy Bomber And Fighter—The British
 Four-Engine "Halifax" Monoplane

The Handley Page Halifax bomber, which, with the Stirling and other heavy types, forms the spearhead of the sustained British R.A.F. offensive on Germany, has been engaged on many heavy raids, some on Berlin, when the devastating effect of its huge bomb-load has been brought home forcibly to the enemy. An all-metal midwing monoplane, its wing span is 99 ft., length 70 ft., and height 22 ft. Powered with four Rolls-Royce Merlin 12-cylinder liquid-cooled engines, it has three-bladed propellers and carries heavy defensive armament. . . . A "bomb-train" before a waiting Halifax and the smiling crew.

A British Submarine Setting Out On Patrol
 After A Spell At Her "Mother" Establishment

The submarine depot ship or shore establishment has a smithy and foundry, workshops, pattern shop, plate shop and storerooms and supplies, torpedoes, ammunition, a new periscope, food, stores or clothing, etc. This picture shows members of the crew of a British submarine manning the gun as the vessel leaves for another patrol in enemy waters, where great successes have been achieved. A total of 1,276 officers and men rescued from sunken Axis submarines are now held by Britain as prisoners of war.

INTERESTING TALK

Last Saturday afternoon Mrs. C. Beckton, chairwoman of the Victoria Red Cross Work Commit-

tee, gave a most interesting talk to the Ganges Unit, in the Domestic Science Room of the Consolidated School. Mrs. Beckton dealt with the activities of the Red Cross, describing in detail the work of the society. She was assisted by Miss H. Nash, who also addressed the members and had on exhibition many knitted garments. It is understood that at a later date the local unit will try and make arrangements with the ladies for another and larger meeting, when there will be time to notify the residents.

Ten was served by some of the committee at the close of the afternoon.

WHAT HAPPENS BEFORE A BRITISH CONVOY SAILS?

The world sometimes wonders why so many British convoys get safely to port despite all the efforts of the Axis. Here is one of the reasons — the Convoy Conference, which takes place before the Convoy sails, and at which Masters of vessels are given their instructions and positions. The photographs show: 1, Captains and masters of British merchant ships being brought ashore in a tug for the "Convoy Conference," at which they will receive the latest information and instructions; 2, Landing for the conference; 3, The President of the "Convoy Conference" addressing Captains and Masters who will be in charge of the ships in convoy; 4, The convoy musters under the watchful eyes of the escorting ships of the British Royal Navy. Some of the ships carry barrage balloons to counter the attacks of German dive bombers.

Famous Products of an 80-Year-Old Vancouver Island Industry

THE only way to win good will is to earn it. So, wherever you go on Vancouver Island you will find the beer most frequently asked for is a product of this famous old Victoria brewery.

Long years of experience in brewing the types of beer that most people like is only part of the story. Equally important is the fact that this brewery is essentially a Vancouver Island industry—employing Vancouver Island people; buying its thousands of tons of coal every year from Vancouver Island mines; using barrels, cartons, wrappers and printed labels from other Vancouver Island sources. It is a spirit of friendship that makes so many people say "Make mine a Phoenix, a Silver Spring or a Rainier."

Enjoyed your trip on Vancouver Island? Ever?

To Inform Businessmen About Price Ceiling Regulations

A plan to inform business men about price ceiling regulations by sending bulletins to all firms under licence to the Wartime Prices and Trade Board is announced at Ottawa.

"Every business which has already applied for or obtained a Wartime Prices and Trade Board licence is now on the mailing list to receive these business bulletins," explained C. R. Morphy, Director of Licensing. "As each new application for licence is received, the name of the applicant will be added."

Apart from the legal requirements which make it obligatory for every licensee to notify the board after March 31st of any change in name, ownership, or character of his business within 10 days after such change, such notification will enable the Wartime Prices and Trade Board to keep its mailing list for information up to date.

Every person who buys for resale, sells or offers for sale any goods must obtain a Wartime Prices and Trade Board licence, unless he has already obtained one under a previous board licensing order. Farmers, gardeners, livestock and poultry producers, and fishermen, need no licence unless buying for resale. Operators of private boarding-houses and employees of persons or firms themselves subject to licence are also exempt.

The current licensing order also applies to those providing services which have been brought under the price ceiling. These include: the supplying of electricity, gas, steam and water; telegraph, wireless and telephone services; transportation of goods and persons and the provision of dock and harbour facilities; warehousing and storage; undertaking and embalming; laundering, cleaning, tailoring and dressmaking; hairdressing and beauty parlor services; plumbing, heating, painting, decorating, cleaning and renovating; repairing of all kinds; supplying meals and beverages; exhibiting motion pictures; process manufacturing on a custom or commission basis.

Licence application forms have been distributed to all Post Offices. Upon completion these are to be mailed, post free, to the Director of Licensing, Wartime Prices and Trade Board, Ottawa. There is no licence fee.

Upon receipt of completed forms, the Director of Licensing will mail to each applicant, a licence identification card bearing his licence number which will be valid for the duration of the Maximum Prices Regulations. After March 31st, any official or investigator of the board may require the production of this identification card by any business subject to the price ceiling regulations.

Enquiries for further information should be addressed to the Regional Directors of Licensing at Halifax, St. John, Charlottetown, Montreal, Winnipeg, Regina, Edmonton or Vancouver.

In God, and God in him" (1 John 4: 10).

Among the citations which comprise the Lesson-sermon is the following from the Bible: "And Jesus went about all Galilee, teaching in their synagogues, and preaching the gospel of the kingdom, and healing all manner of sickness and all manner of disease among the people" (Matthew 4: 23).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Divine Love always has met and always will meet every human need. It is not well to imagine that Jesus demonstrated the divine power to heal only for a select number or for a limited period of time, since to all mankind and in every hour, divine Love supplies all good."

Among the patients registered this week at Rest Haven Hospital are Mrs. Bazett-Jones, Deep Cove; Mrs. A. Rand, Capt. W. Byers and Mr. Nicholas Brown, all of Sidney.

The North Saanich Volunteer Fire Brigade responded to an unusual call on Saturday about midnight when a car caught fire on the Chalet Road, Deep Cove. The exact cause of the fire is not known but it is believed that owing to a small hole found in the gas tank a rock may have struck same allowing gas to immediately run onto the exhaust pipe, thus starting the fire. The car, owned by Mr. Lebeau, Third Street, Sidney, is a total wreck, everything burnable, except the front tires, going up in smoke.

If there is an AIR RAID ALARM

If there is an air raid alarm, don't telephone unless absolutely necessary. Leave the telephone system free to handle urgent calls by the authorities. Your safety may depend on this.

The recent blackout on the coast gave us a significant warning of how the public can quickly overload the telephone system interfering with vital calls.

Resist the impulse to telephone about unusual sights or sounds during the present critical days.

How Rent Control Affects You —

as a landlord as a tenant

AS a part of the general plan to halt further increases in the Cost of Living, the Government on December 1, 1941, extended the policy of the Price Ceiling to rentals for all commercial and housing accommodation in Canada. Generally speaking the new rental laws provide that:

- (1) No oral or written lease for any commercial or housing accommodation (furnished or unfurnished) may legally be made after October 11, 1941, at a rental higher than the rent lawfully payable under the lease in effect on that date unless an application for increased rental has been made to and approved by a local Rentals Committee of the Wartime Prices and Trade Board. Such an application must be based on specified circumstances arising since October 11, 1941.

NOTE: Land and premises used solely for farm purposes are not subject to rent control.

- (2) A tenant is entitled to a renewal of his lease unless the landlord requires the premises for certain reasons named in the Board's Rental Orders and has given the tenant a written notice to vacate within the time, and in the manner prescribed therein. If this notice to vacate is contested by the tenant, the landlord must secure a Court Order for possession.

- (3) Copies of all Rental Orders and Regulations of the Board and application forms for rental variations are available from any of the regional or sub-offices of the Wartime Prices and Trade Board, and, in areas where such offices are not yet established, from the Clerk of any County or District Court or local Rentals Committee.

VIOLATIONS of these orders are punishable by law and should be reported in writing to the Prices and Supply Representative Regional Office, Wartime Prices and Trade Board, at the nearest of any of the following cities: Vancouver, Edmonton, Regina, Winnipeg, North Bay, London, Toronto, Brockville, Montreal, Quebec, Saint John, Halifax or Charlottetown.
